

## RPackageReviews

My List of my most commonly used R packages, what they're used for and my review videos on them

YouTube Review Video	R Package	Category	What I Use It For	Example
:movie_camera:	Skimr	Analysis	Simple summary statistics	Example
:movie_camera:	Data.Table	Analysis	Data frames but blazingly fast	Example
:movie_camera:	Magrittr	Analysis	Dat Pipe Doe %>%	Example
:movie_camera:	Tibble	Analysis	Create tables through tribble()	Example
:movie_camera:	Dplyr	Data Cleaning	Clean data with sort/filter/distinct, and more	Example
:movie_camera:	Lubridate	Data Cleaning	Managing dates in R	Example
:movie_camera:	DevTools	Development	R Package creation	Example
:movie_camera:	TestThat	Development	Unit Tests	Example
:movie_camera:	Roxygen2	Development	Inline documentation	Example
:movie_camera:	Todor	Development	Keep track of, and resolve TODO's	Example
:movie_camera:	Vitae	Documentation	Create an awesome data driven CV	Example
:movie_camera:	RMarkdown	Documentation	All things robust documentation	Example
:movie_camera:	Bookdown	Documentation	Robust docu- mentation in long form	Example
:movie_camera:	Tufte	Documentation	Tufte style documentation	Example

YouTube Review Video	R Package	Category	What I Use It For	Example
:movie_camera:	DiagrammeR	Diagrams	Create custom diagrams all with R	Example
:movie_camera:	Here	Navigation	Simple file path management	Example
:movie_camera:	Blastula	Notification	Send Emails from R	Example
:movie_camera:	Beepr	Notification	Make Beep Notification sounds	Example
:movie_camera:	KableExtra	Tables	Table Generation	Example
:movie_camera:	DT	Tables	HTML Dynamic Tables with Sort/Filter/Search/Pagination	Example
:movie_camera:	ggplot2	Visualization	Create beautiful custom data visualizations	Example
:movie_camera:	Patchwork	Visualization	Create a single image containing multiple ggplots	Example
:movie_camera:	Plotly	Visualization	Create interactive ggplots	Example
:movie_camera:				Example
